Ítalo Martins de Faveri

Flutter Developer

👤 Profile

Software Developer proficient in several platforms, languages and systems. Some of my achievements as a software developer:

• Development and publication of an application on PlayStore (application developed with Flutter and Firebase, you can find the application's page on the App Link).

• Development of a CRUD app in Flutter that interacts with my own API.

• Development of CRUD Screens in Java with interaction in MySQL database.

(more projects on my Github or Portfolio).
